

PRESS RELEASE

ASLAN clearboard film turns every print into a writable whiteboard

ASLAN, the German producer of self-adhesive films, presents its new clearboard film ASLAN CB 90 for creating individual and writable whiteboards.

Whiteboards have become more popular and are increasingly used in offices, schools or conference rooms. However, in many cases the whiteboard should be designed individually, for example by including the logo or corporate design of a company.

ASLAN now presents a clear laminate ASLAN CB 90 that is recommended as clearboard film exactly for this application. This polyester laminate can be laminated onto any print, turning it into a writable whiteboard. Its scratch resistant surface allows to write on this film many times without any visible shadows or ghosting.

An ideal combination is the white ferro film ASLAN FF 450. This printable self-adhesive film contains iron pigments making it suitable for applying magnets. Laminated with ASLAN CB 90 an individually printed whiteboard is created onto which magnets can be applied.

For detailed product information please contact ASLAN directly or visit www.ASLAN-schwarz.com

ABOUT ASLAN:

ASLAN, Schwarz GmbH & Co KG, a private family owned company, has been a worldwide innovator in self-adhesive products for 60 years. Being a specialist in self-adhesive films ASLAN successfully develops and manufactures high-quality unique products and distributes them worldwide. In addition to a wide range of brand products ASLAN offers a variety of individual solutions tailored to customers' requirements.

One of the main markets for the wide range of ASLAN products is "sign-making and digital printing". ASLAN also offers a large portfolio of products for various sectors, including books & office, interior design, industry and construction trades, hobby crafts and glass decoration.
